- Interactive Dashboard display with VU meter
- 3 way Bass Reflex Speaker System
- Plays CD, CD-R and CD-RW discs
- FM/AM Digital Tuning with 40 presets
- Full Dual Tape Deck with Auto Replay
- Bedroom Clock with Wake-up and Sleep-timer
- Plug and Play for easy installation of radio stations
- 31-key Remote Control

Let's make things better.

PHILIPS

Sound Enhancement

2 x 140 Watts RMS Stereo

140 watts continuous RMS power output per channel, at 6 Ohms, from 120Hz-15kHz, with no more than 10% Total Harmonic Distortion (THD).

Max Sound for instant power boost

A one-touch button sound setting for instant power boost which including extra bass performance and sound pressure level. It has designed to give extra boost with Digital Sound Control and Virtual Ambience Control sound settings.

Incredible Surround™

An exciting, new, psycho-acoustic method of widening the stereo spatial image especially suited for applications with limited separation of left and right speakers.

Digital Sound Control

(digital, pop, classic, rock, newage, electric)

Digital sound control (or DSC) offers different sound settings tailored for specific musical styles.

Virtual Ambience control

(hall, cinema, arcade, concert, disco, cyber)

Virtual Environment Control enables you to select the mode of listening pleasure like you are in the cinema, hall, arcade, concert, disco or cyber.

3-step Dynamic Bass Boost via jog control (beat, punch, blast)

Boosting bass response as much as 8 decibels (nearly 3 times more than normal) Dynamic Bass Boost yields full, rich tonal quality at all volume levels.

3-Way Bass Reflex Speaker System

Equipped with one 6 1/2" woofer and one 2" tweeter and one 1" polydome piezo, 3-way enclosures feature a wider range of frequency response for greater listening pleasure and bass reflex enclosures for deep, rich bass response.

AM/FM Stereo Digital Tuner

State-of-the-art precision tuning system insures precise, accurate station selection every time, along with the greatest performance and reliability available.

Bitcheck Digital-to-Analog Conversion

Employs dynamic element matching to eliminate deviations in bit current to eliminate crossover distortion and supply extremely high linearity in audio reproduction.

Design

Design Concept

The linear theme, reflecting future design trends, and distinct control clusters combine to create a modern and functional design. The elements of quality, robustness and power are manifested through the rich metallic finishings and dramatic three dimensional surfacing.

MultiColor FTD Display

This large display is easy to read at any distance with no distortion or distraction and the multi-color format makes it easy to recognize different functions at a glance.

Ergonomic Control Layout

Convenient grouping of related functions along with positive tactile feedback from front-mounted controls optimize this model for comfort and convenience.

Convenience

3-CD Changer with Motorized Drawer

Multi-disc play capability provides more than three hours of continuous music.

Plays CD, CDR and CD-RW discs

The player offers 100% playback guarantee of CD, CD-Recordable and CD-Rewritable CD's over the entire life time of the player. Even CD-RW audio recordings on computers can be used.

Dual Logic Tape Deck

Offer the ability to switch from one function, such as fast forward, to another function, such as play, by remote control.

Auto Replay

The feature employs an auto rewind mechanism to sense the end of the tape of the same side and automatically rewind and playback at the beginning of the tape providing an uninterrupted, continuous flow of music.

Interactive Dashboard Display

An integrated Fluorescent Tube Display (FTD) Volume Unit (VU) Meter shows volume level and musical amplitude during playback.

31-key Remote Control

This infrared remote control operates volume +/-, all CD functions (POWER, NEXT, PREVIOUS, PLAY, STOP, PAUSE, SHUFFLE, REPEAT, PROGRAM, CD123, CD DIRECT 1, 2, 3, <<< and >>>), AUX/CDR select, TUNER select, TAPE 1/2 select, Timer ON/OFF, CLOCK, DISPLAY, SLEEP and sound enhancement features including MUTE, Digital Sound Control (DSC), Virtual Ambience Control (VAC), Incredible Surround™ (IS), Max on/off and Dynamic Bass Boost (DBB).

Plug & Play

Press 'PLAY' to perform auto programming and storing of audio stations in presets as well as initiation of sound presets.

40-Random Channel Presets

Random memory presets allow pre-programming of up to 40 AM and FM station frequencies into the tuner memory.

Auto Store

Automatically stores up to 40 preset FM or AM stations.

40-Track CD Random Program

Store up to 40 of your favorite CD track selections, from one or multiple discs, to be played back in the order in which they are programmed anytime you like.

Auto Record Level Control

Micro electronic circuitry constantly monitors the final audio amplifier stage to insure accurate, distortion-free recordings every time.

Video/AUX Input

For connection of audio accessory pieces such as a LD or DVD player, television, or external cassette deck.

Direct Source Selection

Automatically switch to a new source and pause the current source at the touch of a single button.

Demo Mode

Functions always. Press "STOP" for 5 secs to interrupt demo mode.

Direct Play Button

Allows you to select and play any CD in the carousel by touching only one button.

Change While Play

Flexibility of changing 2 discs while still listening to the third disc being played.

One-Touch CD Synchro Recording

One button allows the cassette deck and CD player to communicate with one another to synchronize the start of a recording on an analog audio cassette deck with the start of a CD or a CD program.

Repeat track/disc/all

Repeat your favorite track, disc or all.

Shuffle One/All Discs

Plays all selections on a particular disc or multiple discs in multi-disc players in random order, ignoring the sequential order in which they were originally recorded.

Next/Previous Skip

This two button feature offers you the opportunity to skip back to the previous track or skip up to the next track instantly.

Clock, Alarm & Sleep-Timer

Set the alarm portion of a built-in digital clock to wake you to music from your favorite CD or an AM/FM radio station at any desired time of the day. Sleep timer settings of 60, 45, 30 or 15 minutes.

3 Display modes (including nite mode)

2 different display options showing different amounts of display activity can be selected and 1 nite mode display which shows minimal display activity and turns most of the lights off.

Eco Power Standby Mode (<1 watt)

Most systems consume 10-15 watts just on standby. Philips systems consumes less than 2 watts of energy on standby for big savings to the listener.
